Welcome to Cadabam'S

Rehabilitation for Mental Health and Drug & Alcohol Addiction

CADABAM'S Psychiatric Rehabilitation Centre established in the year 1992 has grown to be one of the distinguished Psychiatric rehabilitation care center in India today. Over the years, the institute has mastered the skills of delivery of one of the best form of mental and psychiatric rehabilitation care. This experience has given CADABAM'S Psychiatric nursing and Rehabilitation Centre the scope to understand its clients at the utmost and for the same has developed a wide array of specialized Psychiatric hospitals. These psychiatric nursing rehab centres diverge catering to specific needs of the clients by providing them with a diverse kind of accommodation to do its best to ensure that the client experiences the 'Home away from Home'. This psychiatric hospital is also a **drug and alcohol addiction rehab** center which provides best addiction treatment facilities.

The 'Home away from Home' offers solace to the suffering individual and family alike, where the atmosphere would be a large extended family in which the residents would get the comfort, security, love and kindness of the family, with psychiatric **rehabilitation** programmes and mental health care administered by psychiatric experts in respective areas. Cadabam's drug rehab center makes sure that the addict knows the necessary skills to not use addictive substances. **Drug Addiction Rehab** is the only way to recover from depths of drug addiction.

Cadabam's **rehab** centre has the most effective **drug** addiction **rehab** facilities that has helped hundreds of individuals suffering with **drug addiction** to find rehabilitation for their addictions and live happily with their families and friends. This **drug rehab** centre has a sophisticated type of natural therapy for **drug rehab**, which provides the drug addicts to feel more like home environment during the **rehabilitation** period.

Psychiatric and Drug **rehabilitation** with prime focus on recovery is so diverse that it often expects individualized structured approach. CADABAM'S **Mental Health** Care for more than a decade and half has focused on interventions depending upon the need and challenges posed by mental health disorder, person afflicted with **mental health** disability, and the family. This has facilitated CADABAM'S mental health **Rehabilitation** Center in achieving various credentials in the field of Mental Health care. CADABAM'S mental health center today operates in all the varied fields and extended services of **mental health**.
